Nov. 26<sup>th</sup>. 1872

Dear Hooker.

You will be surprised to hear  
that I now and then turn with infinite  
pleasure to my collection of dried  
plants. I remember nearly every specimen  
I gathered in the South of France and  
elsewhere. I wish to get my Ferns,  
dubuit I have a pretty large collection -  
i.e. for myself, - in order. Which  
is the best book to work from?  
I presume your "Synopsis Filicum."  
If so, will you kindly give me  
the date of the last edition. Apologies  
for thus troubling you,

Remain,

Yours ever

D. Hooker, F.R.S. &c.

My dear Dr Hooker,

I am glad to say that  
the Herbarium contains  
specimens of the four  
genera of *Louriera* you  
mention - Polyosus, Antlerura,  
Stigmaranthus, and Aidia.

I am  
Yours faithfully  
Dr J. D. Hooker } Wm Carruthers

My dear S. - Herbert

I don't know  
whether you have returned  
and from the Continent.  
If so, are you likely to be  
in town any evening  
this week - should any  
business bring you in. I  
should like to hear you some

Specimens of that bark  
a different trees about  
which I wrote you some  
time ago

Yours very truly  
Drummond

Dear Hooker

I was obliged to  
write to Howard for the  
information : — here is  
his reply.

You need not return the  
note.

Yours sincerely  
Dan Hanbury.

Dr. J. D. Hooker.

My dear Hooker -

I am not quite sure  
when Thomson is a present  
as, you being the busier man,  
I would have submitted the  
enclosed letter to him. Would  
you kindly tell me in a  
few words what reply you  
would advise me to send  
to the writer?

Yours sincerely

J. Archer Archer

Dear Hooker

A young Pupil  
(Medical) wishes to read  
an elementary Book,  
(a Manual) on Vegeta-  
ble Physiology, and  
I promised to learn  
from you what one

might be recommended,

Will you kindly advise  
me then by taking  
the trouble to send  
me the title of  
something that will  
answer?

Yours sincerely

W. Sharpey

J. S. Hooker MD

Berkeley Square. W.

Dear Dr Hooker

I am requested by  
the Synodical Council  
to ask the favor of your  
forming a deputation  
which we are sending  
up to Gov<sup>l</sup>, with a  
Memorial (copy of which  
unaccompanied) regarding  
the despatch of our new  
Arctic Expedition during

the next Summer —

We are the recipient  
by Mr Low & Mr Goschen  
at the Rehearsal on Monday  
the 16<sup>th</sup> Inst<sup>l</sup> at 3.30 P.M.  
and we feel that our  
chance of success will  
be much improved if  
you would consent to  
say a few words on the  
Scientific value of the  
proposed Exhibition —

Thanks for being able to  
come up from Kew for the

purpose, you will find  
not as crowded in the Hall  
after the Athenaeum Club  
at about 3 o'clock on the  
day in question —

Remains

Yours very truly  
H. D. L. L. L.

69, Mark Lane,

London <sub>E.C.</sub> 11 April 1872

My dear Hooker,

My wife informs  
me that you were kind  
enough to say we might  
find a few spare Dodons  
at Kew. If such is the  
case, as we are going direct  
to Rhodhays after our  
visit to Kew tomorrow,  
we would, if perfectly  
convenient to you people,  
take them with us, so that  
we could see to their planting  
on Saturday, a day, very  
short now. Dr. Orestich

I believe writing to Mr. Hooker today.

Prague 2<sup>d</sup> Dec<sup>r</sup> 1870

My Dear Mother

The goose  
came safely to hand  
very many thanks for  
the same. It really is  
goshing and true to word  
the Sebastopol goose has  
the remarkable peculiarity  
of attaining very early  
maturity as the meat  
was as fine & full

flavoured as that of  
your matrons.

I had a note from  
Elizabeth yesterday  
and hope to see him  
here tomorrow morning  
No other news

With much regards  
Ever yours truly  
Robt Wright

Millenhall,  
Wetstone,

15 Oct/70

My dear Hooker -

I will try to  
come to you at Kew  
on Tuesday - some time  
in the afternoon & remain  
till next morning - I say  
I will try, which means  
that if no calamity  
prevents me I will come  
but as I leave England

9, Hyde Park Gate South.

W.

Tuesday

Dear Mother,

I hope I have  
not forfeited - tho not  
writing sooner - the  
tempting offer of a  
couple of boxes of  
Ipsa Divina which  
will be most acceptable.

You may send them  
- please - to Miss Adeline

at which at all and  
any time (save the 3 or 4  
autumn months) we should  
be delighted to see you.

I am happy to say  
that the skin which  
you gave me 'in exchange'  
(3 or 4 years ago) after keeping  
me in a state of painful  
anxiety for a long  
time - is now

taking to good ways  
& I have a good  
hope of sending it back  
to you - in due course of  
time - much finer  
than it came!

The weather has been  
so cold that I don't  
put on any more than  
this - how welcome  
the skin would be.

Very truly  
yours  
A. Bateman

U. 2. 1914 IX, 12

Dear Dr Hooker

I am inviting the Nat.  
Sciences Examiners to  
meet at my house on  
Friday Oct. 28 for the  
purpose of arranging their  
respective shares in the  
examination. Now, though  
we shall be very glad to see you,  
it is not requisite that you  
should be present on that  
day. For by natural selection  
the different exams have  
all got their parts spontaneously

allotted to them. Mr Flower  
takes Zoology & Anatomy;  
Mr Trotter, as before, Chemistry;  
Mr Danby Geology; and  
mineralogy.

I hope it will be convenient  
to you to attend a meeting  
on or about Nov 18 for  
the purpose of making the  
papers of questions.

The examination begins  
on Dec. 5.

Very truly yours

W. H. Miller
